## FIRE & SECURITY

DEAR HOMEOWNER:

Your day is finally over. You're tired, ready to put work last and you first. When you get home, the door is unlocked for you. The security system is turned off. Your lights are turned on. Relaxing music plays throughout every room until your shades lower and the newest film release or treasured classic begins in your home theatre as you ease into your favorite seat.

YOU CAN HAVE IT ALL; AT THE TOUCH OF A BUTTON.

YOU RANG, SIR?

With home automation, your home is your butler. From traditional buttons to touchscreen interfaces to smartphone and tablet apps with remote capability, you control nearly every aspect of your home from almost anywhere.

SMART. HOME.

Meet Satellite Station Fire & Security, the premier dealer in Texas for home automation, including lighting control, home theater systems, security and electronics.

The benefits of a smart home that is custom fit to your lifestyle, to your family, to your day-to-day peace of mind, are immeasurable. Satellite Station Fire & Security will guide you through the entire project; planning, designing, installing, and updating the home technology that helps you run your life. Relax after work and on the weekends and enjoy your family.

From all sizes/prices of homes, to some of the most luxurious condos, offices, and boardrooms in Texas, it is never one size fits all. Together, we will create an audio, video, and technological experience that reflects your individual style and unique personality ... and blow your friends and neighbors away.

# HOME AUTOMATION

*Shades.*

*Lighting.*

*Climate.*

*Access.*

Control almost every aspect of your home from almost anywhere. It's more than cool. More than convenient. It saves you time and it saves you money. Simply.

Set a romantic after-dinner scene complete with mood lighting and music. Turn off lights that the kids leave on. Activate your security system. Create the perfect ambience throughout your home—from your smartphone.

Or let your smart home do it all automatically.

4-5

GTO  
GATES THAT OPEN™  
DRIVEWAY GATES • SECURITY SYSTEMS • SMART HOMES

Program your window shades to track and respond to the heat from the sun. Set your heat to auto-adjust to morning, day, or evening temperatures. Use built-in sensors to turn off lights when rooms are empty. All this from hands-free house-wide system controls.

Open the driveway gate as you pull up. Before you get out of the car you turn off the security system, check the home temperature and turn on a few lights.

## WHERE BEAUTY MEETS BRAINS

At the heart of your home is a centralized home connection center – a superior way to route traditional home wiring and the most modern way to distribute entertainment services within your home.

## IT ALL STARTS HERE

Building your dream home from the ground up gives you the chance to add today's "smart" technology to enhance entertainment, communication and comfort. The Home Connection Center is where it all comes together. Signals from the outside world (telephone, cable TV, satellite, Internet) enter the Home Connection Center and are distributed throughout the house.

6-7

*Powerful.*

*Reliable.*

Our service technician will customize your wireless options based on your needs and use. We'll make sure it's set up so that you can connect, but your neighbors can't. Considering all the information that runs through the Home Connection Center, it feels great to be wireless and worry-free.

*Reassure. Secure.*

## SAFETY & SECURITY NETWORKS

Monitor your home—even your vacation home a thousand miles away—from any TV, or from any smartphone or tablet. You don't even have to get out of bed to see your networked security cameras. From checking for intruders at your main house to checking for water in the basement at your summer home, you and your family are safe and sound.

With one touch you activate the security alarm and all the lights come on. A smart home is a safe home. And your family's well-being has never been more secure.

# MONITORING

## WE'RE ON GUARD EVEN WHEN YOU'RE ASLEEP

Don't let your new home and those who live in it go unprotected. Protect your house and family 24/7 with a state-of-the-art GE security system. Don't wait. The best time to install security systems for burglary, fire, and carbon monoxide is while your home is being built.

*Inspect.  
Protect.*

## MONITOR YOUR LOVED ONES

Never be more than a few steps away from monitoring your children or a family member from any intercom location. No receivers to carry. No batteries to replace. No more worries about unreliable wireless baby monitors.

## SEE WHO'S THERE

Know who's at your door before you open it. Talk with visitors from any speaker location, or get even more security with high-resolution cameras and LCD screens that let you both talk and see.

ROCK THE HOUSE

Bass. Piano. Electric. Acoustic.  
No matter your musical preference, you'll enjoy crisp, concert-quality sound throughout your house when you're connected to some of the most trusted brand speakers in the world.

# OUTDOOR

*Wireless.*

*Outdoor TV and music at a volume everyone can enjoy.*

Whether you're having a lively warm summer cookout, a relaxing cool fall evening around an outdoor fire, or listening to holiday tunes while making snow forts with the kids, all-weather TVs and speakers hold up even when nature's bringing you down. With wireless technology your deck, patio, and yard are your stage under the stars and sun.

## OUTDOOR ENTERTAINMENT

Warm summer night? At the touch of a button, music plays to your friends on the deck. Hidden speakers blend seamlessly into your landscaping. An elegant glow sets the scene. You haven't moved from the conversation or your chair.

Producing more sound per watt, these all-weather speakers are perfect for use in wide open spaces. The "rock-like" speakers blend in so well you can fill your yard with music and not compromise your landscaping.

# VAULTED

CASH VAULT safes offer plate steel with simple functionality for excellent security and quality. With a variety of sizes to fit almost any valuables.

THE FLAME VAULT SERIES safes are built using the latest modern technology and materials, protecting papers, documents, photos and more.

OUR GUN SAFES will give you peace of mind knowing your firearms are safe from burglary, fire and children.

FLOOR SAFES brute force protection is important, but a thief can't steal what he can't find. Install into concrete and level with the floor. A thief could walk right over it and never know it's there.

Beneath the rug and under this chair is a safe. We dare you to try to open it, take it out, burn it or even find it.

*Hidden. Fireproof.*

# SUPPORT

*Certified.*

Satellite Station Fire & Security is just a phone call away to troubleshoot the issue remotely or come to your house quickly.

Truth is, onsite or off, when you team with Satellite Station Fire & Security, their work doesn't end when the job is complete, it just begins with the service and support you should expect for your home. From network security to system upgrades, from a new TV to adding music to your library, Satellite Station Fire & Security is here to support you and your home system, keeping your life (and your lifestyle) in working order.

Satellite Station Fire & Security takes care of every detail, starting with helping you and your family understand how simple and easy it is to operate your system. And continuing with diagnosis and repair.

Your satisfaction is Satellite Station Fire & Security's first consideration and final goal. Support and service come standard.

You're Welcome,  
Home

*Authorized.*

A house full of the latest technology is wonderful ... as long as you can use it confidently. Satellite Station Fire & Security will make sure that's the case. When you and your new home are ready to go live, your Satellite Station Fire & Security technician will complete activation of your security system. We'll make sure you know how it all works, and we'll be there any time to answer questions if you forget.

*Smart.*

*Call us, we'll  
keep you and  
your home  
technologies  
up-to-date.*
